Construction Update
October 14, 2021

The Idaho Transportation Department (ITD) continues to pave Idaho 55 between Donnelly and McCall.

Construction is almost complete:

- Paving expected to wrap up next week
- Crews will then finish applying permanent road markings and adjusting approaches.

If your driveway or road is repaved please wait 30 minutes to an hour before driving over it.

Safety is ITD's #1 priority

- **No passing** in the project area regardless of road markings
- Traffic **must stop and wait** for the pilot car in the work zone
- **Do not** turn around when waiting for the pilot car
- Expect an uneven road surface, and bumps when entering or exiting ID-55

Idaho 55 Smiths Ferry Project Update

Expect:

- Full road closures Monday-Thursday from 10 am to 2 pm
- One-way alternating traffic outside those hours.
